# Connecting Your Gradescope Course to Brightspace

### Description

Gradescope is an online grading tool for scanned, pen-and-paper, free-response assessments. This tool supports workflows for both individual student assignment (homework) and instructor upload of assessments (exams).

## Creating A Gradescope Module

This step is optional, but by creating a module in Brightspace for Gradescope you provide students with an easy place to find their Gradescope link and any associated support documents or instuctions.

| 1. | <b>Login</b> to Brightspace at <u>https://purdue.brightspace.com</u> and <b>enter</b> your course.          | Search Topics  | ٩            |
|----|---|--|--------------|
| 2. | From the bottom of the left sidebar, <b>click</b> on the module creator tool.                               | 토 Syllabus   |              |
| 3. | <b>Type</b> Gradescope and press enter to create a new module. This will open the module when it's created. | <ul><li>☐ Bookmarks</li><li>☐ Course Sched</li></ul> | ule          |
|    |   | Table of Contents                                    |              |
|    |   | Gradescope   |              |
| Ad | ding A Gradescope Link To Your Course   |  | Add a module |

1. Inside your new module, **Click** on "Existing Activities" and **select** "External Learning Tools" from the drop-down menu.

| fooksma10                | Add Kaltura Media                      |   |
|--------------------------|--|---|
| Grades Class Progress    | Assignments                            |   |
|                          | Checklist                              |   |
| Gradescope               | Chicago Business Press Content Selecti |   |
|                          | Discussions                            |   |
| Add dates and restrictio | External Learning Tools                |   |
| Add a description        |  | • |
| Upload / Create 🗸        | Existing Activities 🗸 🔗 Bulk Edit      |   |

2. When the Add Activity page opens, either scroll down or enter "Gradescope" in the search box.

| Add Activity |                          |              | × |
|--------------|--------------------------|--------------|---|
| +            |                          | Gradescope 🗙 | ^ |
| LTI Link 🔺   | LTI Advantage Deployment |              |   |
| Gradescope   |                          |              |   |

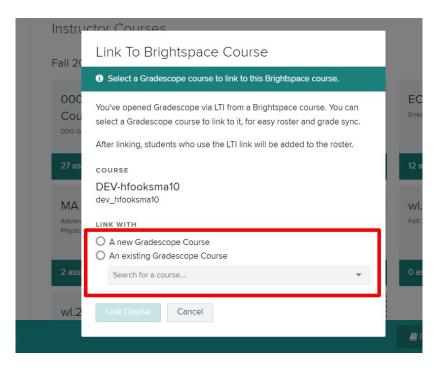

3. **Click** on the "Gradescope" LTI. This will add a direct link to Gradescope to your Gradescope module.

## Creating and Connecting Your Gradescope Course

1. **Click** on the new Gradescope link that you just created. This will open Gradescope inside your course. (To open as an external resource, skip down to the last section in this guide.)

| Gradescope   | ~                     |             | 🖨 Print | 🔅 Settings |
|--|-----------------------|-------------|---------|------------|
| Add dates and restriction                                      | 15                    |             |         | ۲          |
| Add a description  |                       |             |         |            |
| Upload / Create 🗸  | Existing Activities 💙 | 🔗 Bulk Edit |         |            |
| <ul> <li>Gradescope</li> <li>External Learning Tool</li> </ul> | ~                     |             |         | ~          |

 If you need to create your course in Gradescope, click the radio button next to "A New Gradescope Course." If you've already created your course, click the radio button next to "An Existing Gradescope course" and select the correct course from the drop-down menu.

## Updating Your Course Settings

1. Gradescope will automatically populate your course name and number from Brightspace. You can change these to display as you choose.

2. Ensure that your course is in the correct term by **clicking** on the "Term" drop-down. Until September 1<sup>st</sup> Gradescope will default to Summer. Until January 1<sup>st</sup> Gradescope will default to Fall.

|                    |              |  |
| COURSE DESCRIPTION |              |  |
|                    |              |  |
|                    |              |  |
|                    |              |  |
|                    |              |  |
| TERM               | YEAR         |  |
| TERM               | YEAR         |  |
| Summer             | Year<br>2020 |  |
| Summer<br>Spring   |              |  |
| Summer             |              |  |
| Summer<br>Spring   |              |  |

3. **Scroll** to the bottom of the page.

4. **Click** "Update Course" to save these settings.

Congratulations, your course is now ready to use with Gradescope.

Opening Your Course as An External Resource

1. **Click** the drop-down menu next to the Gradescope link.

|                           | View Topic               |
|---------------------------|--------------------------|
| Gradescope                | Edit Properties In-place |
|                           | Hide from Users          |
| Add dates and restriction | Move To                  |
| Add a description         | Edit Metadata            |
| Upload / Create 🗸         | Remove Topic             |
| Gradescope                | ~                        |

- 3. Click "Edit Properties In-Place."
- 4. Click the box next to "Open As External Resource."

| H | Gradescope 🗸               | • 🗸 📋                     |
|---|----------------------------|---------------------------|
|   | 🖌 External Learning Tool   |                           |
|   | Add dates and restrictions |                           |
|   | Add a description          |                           |
|   |                            | Open as External Resource |

5. **Refresh** the page to finalize the change.

### Additional Support

For additional assistance with getting started with Gradescope please email <u>tlt@purdue.edu</u> for support or visit the <u>ITaP Training Calendar</u>.

Gradescope provides a robust assortment of instructional videos inside the <u>get started guide for new</u> <u>users</u> of the tool.
