Circuit for Students

Logging into Circuit

1. **Open** a web browser and **navigate** to [https://purdue.peercircuit.org/](https://purdue.peercircuit.org/)

2. **Click** the *Log in with your Purdue Career Account* button and **enter** your Purdue Career Account credentials.

Content Submission

**PLEASE NOTE:** It is important to remain aware of the due dates for each phase of the assignment. If you miss any due date, you will be unable to proceed to the subsequent phases of the assignment and will receive an incomplete for any missed phases.

3. **Locate** the course and assignment you would like to work on.
4. **Submit** your assignment in the required format. This may be a text submission, file upload, or web link.

5. Once your assignment has been submitted and all criteria for the submission have been met, you will receive a confirmation message. Depending on how the assignment has been setup, the next phase will be either the calibration phase or the peer review phase. You have until the **Content Submission** due date to revise your submission or until you begin calibrations, if applicable. **Click Got it. Thanks!**

   If your assignment includes a **Calibrations** phase, continue to step 6. Otherwise, skip ahead to the **Peer Review** section.

**Calibrations**

6. **Select Open Calibrations** when you are ready to begin this phase of the assignment.
7. Use the rubric (or numeric scale) on the right to evaluate the Example Submission 1 on the left. Then select Submit Review.

8. Repeat this process until you have reviewed and received passing scores on all three sample submissions.
**Peer Review**

9. When the Peer Review phase opens, you will be assigned three peers to review. Use the rubric (or numeric scale) on the right to **evaluate** your peer’s assignment on the left. Then select **Submit Review**.

10. Repeat this process for the remaining two peers.

   If your assignment includes a **Self-Review** phase, continue to step 11. Otherwise, skip ahead to the **Scoring** section.
**Self-Review**

11. Use the rubric (or numeric scale) on the right to **evaluate** your assignment on the left. Then **select** Submit Review.

**Scoring**

12. Lastly, be sure to check back! Your score and any feedback from your peers will be released in Circuit on the day and time set by your instructor.
