

Research Project Description

Name:

Email:

Introduction

1. What are the aims/goals of your research project? Please mention the tentative research questions that you plan to pursue through this project.

2. What is the current gap in the literature? What efforts have been made by other researchers?

3. What constraints are associated with the existing methods?

4. How do your project goals align with CILMAR's vision?

Research Project Description

5. How does your project contribute to diversity, equity, and inclusion and Purdue's goal?

Methodology

6. What research design do you plan to use to answer your research questions? Please discuss in detail the data collection and analysis procedures.

7. Create a Gantt chart showing the key milestones and associated timelines.

Dissemination

8. Please describe the broader impact and intellectual merit of the project.

Research Project Description

9. How do you plan to disseminate the work?

10. How will you and others build on this work to produce more knowledge and secure additional funding?

Budget Justification

[justify the need for expenses and the appropriateness of the amount budgeted]

Expense type	Unit amount	Total Amount
