Item #5– MaPSAC Subcommittee Written Reports

Compensation and Benefits

Compensation and Benefits Subcommittee Meeting Agenda
April 13, 2022, 12-1pm; Teams; Called to order at 12:03pm by Wesley

1. Attendees: David Huckleberry, Wesley Shoop, Samanthi Obeyesekera, Colleen Banter, Kelsey Chapman, JJ Sadler, and Amanda Emmons

2. HR Report (Candace)
   a. Candace was unable to join us, but provided answers to our questions (below in red).
      • Regarding the new Discovery Park emergency room: Are we (Comp & Benefits MaPSAC or Exec MaPSAC) able to sit in on conversations re: the medical facility?
        1. Are you talking about the facility that was mentioned in the BOT meeting a few months ago or are you talking about the eventual facility that will replace the Center for Healthy Living? The former is a PRF partnership and my understanding is the services that will be available are part of that arrangement. If the latter, we do not have a timeline on that facility yet, but when we do, we likely will discuss at the stakeholder meetings. We did have questions on our annual benefits survey a year ago asking what types of services individuals would like to have there and we did do focus groups in 2020 that included questions for that as well. I would assume we would update that information and get more feedback from stakeholders. How we get that feedback is yet to be determined.
        • Regarding professional development funds, does every staff member having an allotment?
          1. No its up to each department to plan for this during the budget planning period.

3. Compensation (David)
   a. N/A

4. Committee Reports:
   a. Joint Stakeholders meeting – Discussed healthcare transparency and shared figures that compared Purdue with Indiana and the nation regarding healthcare costs.
   b. Retirement Committee (Colleen) – Haven’t met. Will meet April 26.
   c. Senate Sustainability Subcommittee (JJ; Anna) — Divest/Invest legislation going to the University Senate for a vote. Was brought up to ensure that if it is passed to follow-through on it.
   d. Faculty Senate Compensation & Benefits subcommittee (Samanthi)—Inquiring about the pay raise increases and will do more research about the categories and
how they were determined. Some faculty are paid at a lower level than other Big
Ten universities. Discussed dental insurance and that the dentist offices use social
security numbers if they do not have their membership cards. Discussed the that the
benefits team is working on a communication plan to showcase the HR service
center for faculty and staff. Some faculty and staff are not aware that they have a
service team that can help with questions on medical claims, prior authorizations,
difficulties with a benefit vendor, etc.
e. Parking Violations Committee (secondary member: Wesley)—Discussed the
difficult spot.

5. Old Business
   a. N/A

6. New Business
   a. Anecdotal feedback regarding HR trainings [included at the end of the notes]
      ● Reached out to specific individuals to get feedback on what the trainings
        were like and were not from an official survey through SuccessFactors.
      ● Great trainings for supervisors and staff members, but still need to
        communicate the process with supervisors and ensure that it is meeting the
        needs of the supervisors/staff.
      ● Different interpretations from the training could also lead to difficulties in
        providing cross-campus performance evaluations.
      ● Should the information provided about the raise pool be better
        communicated since this is how much money is available, but not a
        percentage that all employees will see if they “Meets Expectations?”
      ● Supervisors should be informed of the changes like the minimum hourly
        rate, etc. to help ensure that if questions are brought up to them from their
        direct reports that they have the tools and information to answer these.
   b. Nominations for Vice Chair, Comp & Benefits subcommittee
      ● Send an email to Wesley later this week if you are interested in being
        vice-chair for this subcommittee.
   c. Excellence Award
      ● Wesley will send an email with what was sent last year and will send out
        in Purdue Today to get nominations through Qualtrics for the Excellence
        Award.
      ● We will review the applications after the deadline and make the selection.

7. Reminders
   a. Will approach David this month for May meeting update

8. Adjournment
   a. With no additional business, the meeting with adjourned with no objection at
      12:33pm.

9. Next meetings
   a. Joint stakeholder meeting—TBD
b. Regular: Wednesday, May 11, 12pm via Teams

c. MaPSAC full committee meeting: 4/13 at 1:30pm via Teams

Feedback regarding the Success Factors performance evaluation trainings

To me, we still have work to do to make ratings consistent across the university. As a business manager, we are being told that we should be putting very few 4s and even less 5s for all employees and that 3’s should really be considered our highest rating. It still goes against what HR just said, that we start at meeting expectations, 3, and determine if the employee meets it then go from there. It does line up a bit more with what Adedayo just said about getting a 5 though, that a 5 should be a new way of doing the work on an extremely high level. I sometimes get discouraged because I know that my employees are some of the best in the college and my DFA will even say that, yet, I am discouraged from rating them 4 or 5.

Another concern I have is that we have no consistency on ratings for the same jobs. A business assistant in science could be rating completely different than a business manager in English or engineering even though their jobs descriptions are the same. I understand those assistants may be different levels and therefore have different work loads but we should be rating against the same descriptions. We have a standard job family structure and career streams. If I am an entry level administrative and operational support, what ratings do I need to achieve to reach the standard level, then the senior level, then the lead level? It seems HR is set on developing these standard descriptions and expectations but NOT set on a consistent way to rate employees to reach new levels, ESPECIALLY when the organization does not thing that employees cannot consistently exceed expectations. But, I do not know how Purdue can put this in place across the entire university.

Having said all of that, I do like that they shared numerous resources, I have found them to be very helpful as I have worked through the system. Though I laughed when the first Quick Reference Guide was 20 pages. haha! I especially like the behavior anchor rating document. I also appreciate that they touched on 360 because I think that process is confusing.

I picked up a couple of pointers. One would be to list the name of a downloaded file in the goal it is for since you can only download those files in one place.

I found the webinar helpful. There were things in SF I didn’t realize were there. examples like on the main SF screen the performance management charts. I didn’t realize I could see if goals were completed[started for direct reports of my direct report under that section by clicking on the Workforce Goal Status. Also was helpful to know under the development tab to see the featured resources
