Welcome
Draft Action Plan for Digital Education: Let Us Hear Your Thoughts!

With the help of participants from across the campus we have completed a draft of the Action Plan for Digital Education. We invite faculty, staff and students to review the document and share with us your thoughts and suggestions. Because digital education touches almost every aspect of the university and will be incorporated in different ways by the various academic and administrative units, it is critical that we hear from a wide range of campus voices.

After you’ve read the six-page plan, you can express your views online by completing the Qualtrics survey, or you can register to attend a general review session on January 13 at Discovery Learning Center from 1:30 to 3 p.m.

This draft plan is the product of many hands, those of the 161 attendees at our open input sessions, the students and alumni who completed our surveys, and our 20-member coordinating committee. And it take the input of more hands to refine the draft into the final plan to move Purdue to the forefront of digital education.

The document you’ll download from our website is labeled ‘Draft’ for a reason! We look forward to improving the plan based on input from the Purdue community. Please add your voice to this important conversation.
