Annual Performance Review

**Purposes:**

Maintain a regular performance review process for all ranks to assure, support and sustain the highest possible degree of excellence among our faculty.

Facilitate communication between heads and faculty.

Identify individual strengths, weaknesses and opportunities in all areas (discovery, learning and engagement).

Identify rising leaders and potential barriers to success, and provide mentoring opportunities.
Annual Performance Review

**Review process developed by each head for all Dept or School faculty:**

Annual written feedback for assistant and associate professors, at least every 3 yrs for full professors.

Reviews should be rigorous assessments of all professional activities and responsibilities, and include a holistic review that considers multi-year goals and activities.

Based upon a required annual report submitted by the faculty member. Especially for Assts/Associates, could include utilize information from the annual analysis by the primary committee.
Review process developed by each head for all Dept or School faculty:

A description of the process will be shared with the dean of the college/school and with the faculty through a medium such as the department intranet site.

Best practices may include comparisons to typical Dept/School/College expectations, assessment of progress toward goals, identification of professional development activities for the upcoming year(s).
Annual Performance Review

Current status:

Will be considered by Senate this academic year
