

The following disclosure is applicable to the following face-to-face licensure programs offered within the College of Health and Human Sciences at Purdue University West Lafayette:

## Athletic Training

The Athletic Training program at Purdue University is accredited by the Commission on Accreditation of Athletic Training Education (CAATE), which in turn, qualifies all graduates to meet the necessary requirements for certification in all states and territories which regulate athletic training. California, as well as all U.S. territories, do not currently regulate athletic training. For more information students should visit CAATE's [official site](#).

Certification requirements are subject to change, many times without warning. It is important that students routinely check on current requirements laid out by the state of desired employment.
