

The following disclosure is applicable to the following face-to-face licensure programs offered within the realm of education at Purdue University West Lafayette:

Counseling Psychology

Purdue University's Counseling Psychology degree program is accredited by the [American Psychological Association](#) and therefore meets the education requirements of licensure in all 50 U.S. states and Washington D.C. States boards will still vary in requirements needed for licensure and students should inquire directly to the [State Board of Psychology](#) in the jurisdiction where employment is desired. Please note that jurisdiction licensure or certification requirements may be affected by other factors such as teaching experience, testing requirements, and coursework.

Note: The territories of American Samoa, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands are absent from the above directory. This may be due to missing information for the territory's applicable Board. The U.S. Virgin Islands has only just recently began regulating licensure for counselors. Due to these circumstances Purdue University is unable to make a determination as to the satisfaction of its program to meet educational requirements for these jurisdictions.

Out-of-state requirements are not concrete and subject to change with little to no warning, making it even more important for students to inquire directly to the jurisdiction of desired employment.
