

The following disclosure is applicable to the following face-to-face licensure programs offered within the College of Health and Human Sciences at Purdue University West Lafayette:

## **Human Services with Addiction Studies Counseling**

The above program at Purdue University is unaccredited but provides a path to professional licensure. This program meets the educational requirements of the Licensed Addiction Counselor Associate (LACA) license, as well as the Licensed Addiction Counselor (LAC) license in the state of Indiana. Graduates of the program will be able to receive professional licensure in Indiana, but Purdue has not made a determination as to the satisfaction of this program against licensure requirements for the remaining states and U.S. territories.

States vary widely in terms of testing requirements, educational requirements (undergraduate and graduate), and required coursework. It is important to understand that these out-of-state requirements can change with little to no warning, and it is highly recommended that students consult the applicable state board where employment is desired.

Please note: Addiction Counseling is not a uniform term and states/territories may call this area of study by another name
