

Assessment of Foundational Learning Outcomes

Please combine the following information (in this order) into a single PDF. Please name the file: FO_Subject_CourseNumber_CRN_Year.

For example: **STS_PSY_12000_14102_2019.pdf**

1. A completed copy of the Report Template Page (below).
2. A copy of the syllabus.
3. Samples of student work that have been completely de-identified showing how students demonstrated achievement of the foundational outcome described in your narrative (exam questions, projects, papers, etc.). One example of excellent work, one of average work, and one of poor work should be included. Please ensure that all parts of the sample have had the student's identifying information removed or obscured. Samples should show grading marks and other feedback the student received.
4. A distribution of grades awarded to the entire class on the above submitted assignment(s).

If the course contains multiple sections, please submit **separate PDF files containing items 1-4 for each section**.

If the **same instructor teaches multiple CRN of the same course using the same materials and assessment method**, please note that on the Report Template cover page and submit materials from only one CRN.

Questions may be directed to IDA+A at idata@purdue.edu or the UCC at CoreCurriculum@purdue.edu
