The Purdue University Student Health Center can see walk-in patients for issues related to possible lice and treatment options. The visit will consist of a consultation with a triage nurse who will examine you to determine if you have lice. If it is determined you have lice, a prescription shampoo can be sent to Purdue University Pharmacy for pick up. It is possible that the pharmacy will not have this in stock and will require 24 hours from prescription drop off until ready to pick up.

Many treatments are available over the counter at places like CVS, Walmart, etc. You do not need a prescription. Some common names for treatment are Nix and RID. The Purdue Retail Pharmacy has Nix kits, which includes shampoo, conditioner, comb and spray for household belongings. The cost is $33.39, Nix without the kit is approx. $ 8.00-$9.00.

**PUSH IS OPEN**

**Monday - Friday: 8:00 a.m. - 5:00 p.m.  (765) 494-1700**

**Extended Care is open on Saturdays from 10:00a.m.- 5:50p.m.**

Saturday Extended Care service is limited to addressing the more urgent needs of students who have an illness or injury that requires treatment before regular PUSH hours on Monday. There is one physician available on Saturday with laboratory and radiology services.

**To schedule an appointment call (765)-494-1700**
