

EduNav Planner View

The Planner View is identical for both students and academic advisors. This view populates from data sources like Banner, the Catalog, DegreeWorks, and Advisor SmartPlan Rules. This is the main view where you will individualize your plan. From here you can:

- View your academic history
- Add, remove, or change courses
- Adjust term target credit hours
- Add or remove entire terms

Within the Planner View, you will notice a yellow shaded term on the left side of the screen. This indicates it is a registerable term. Depending on the time of year, more than one term may be "registerable".

A term is "registerable" once the schedule of classes is published. Once this happens, EduNav will compare the courses planned for that term against the schedule of classes. EduNav will adjust the plan as appropriate to ensure it is only planning courses that are being offered for the registerable term.

Within the registerable term(s), you will notice green text that says either "Available" or "Registered" in the block with each course. This indicates if the specific course is already officially registered for or if it is planned and available, but not yet registered for.

The screenshot displays the EduNav Planner View interface. At the top, there are navigation buttons: Back, Save, Clear, and a Status indicator showing 'Valid' with a green checkmark. A 'Validate Plan' button is also present. On the right side, there are options for 'Download' and 'Requirements'. The main content area is divided into two columns for 'Summer 2023' and 'Fall 2023', both highlighted in yellow. Each column has a 'Show my schedule' link. The Summer 2023 column shows 'Planned: 1 CR', 'Registered: 1 CR', and 'Term limit: 8 CR'. It contains one course: CSR 30700 (11450, Tongxiao Zhang), 1 CR, Registered, with a 'CHANGE' button. The Fall 2023 column shows 'Planned: 15 CR', 'Registered: 15 CR', and 'Term limit: 15 CR'. It contains five courses: CSR 34400 (14423, Jen Riley), 3 CR, Registered; ECON 25100 (16553, Melanie Fox), 3 CR, Registered; EDPS 31500 (23194, Muzi Li, Emily ...), 3 CR, Registered; CSR 41500 - Lecture (38501, Tongxiao Zhang), 3 CR, Registered; CSR 41500 - Recitation (15460, ...), 0 CR, Registered; and ECON 21000 (72078, William Be...), 3 CR, Available. To the right of these columns is a 'What is next?' section for 'Spring 2024' with a '14/15 CR' term limit. It shows a list of courses: COM 31800 (3 CR), COM 25300 (3 CR), CSR 33200 (3 CR), and MGMT 44301 (3 CR), along with an 'ELECTIVES' section (2 CR) requiring a minimum of 120 credits.

Within the Planner View, future terms with no yellow shading are planning terms. These begin underneath the header, "What is next?"

Goals - Declared

Callout boxes:

- Undo or redo changes
- View current term courses in weekly calendar view
- Hover over a term to see the trash can and delete the term
- Change target credit hours by term or apply to all terms
- Search for courses, sections, or instructors
- Add courses to a term
- The shaded area is the registerable term
- The electives card is a placeholder for additional credits; change target credits if needed and select add a course to add electives
- Click the plus button to add terms to the plan
- Hover over a course to show the change button which gives multiple change options
- Click and drag cards to move courses from one semester to another
