

# Selectives vs Electives

Degree programs often, though not always, require both Selectives and Free Electives. It is important to understand the difference between the two and how each function in EduNav.

Degree Requirement	Definition	Example	EduNav Display	Customizable
<b>Selective</b>	Finite list of approved courses that meet a specific degree requirement	University Core: Science, Technology, and Society	A pre-selected course from the approved list for that requirement	Yes! Indicated by a blue pencil icon next to the course
<b>Elective</b>	Any course that can be taken to reach 120 total degree credits but does not meet specific degree requirements	PES 14600 Advanced Golf	Electives placeholder with a specific number of elective credits needed	Yes! Specific courses can be planned or the placeholder can remain
