

# Target Credit Hours

At the top of each planning term two credit numbers are listed: the number of credits currently being planned/the target credit hours. Target Credit Hours are the total number of credit hours for each term that EduNav will try to fulfill when planning.

To change the target credits for any given term, click the **blue hyperlinked number** and type the number of credits you'd prefer to take.

The screenshot shows a user interface for planning courses. At the top, it says "What is next?" and "Close". Below this, there are three columns representing different terms: "Spring 2024" (12/15 CR), "Summer" (partially visible), and "Fall 2024" (13/15 CR). Each term has a list of courses with their credit values. A modal window is open over the "Summer" column, showing "Target credit: 8" in a text input field, an "Apply to all terms" checkbox, and "Cancel" and "Save" buttons. The courses listed are:

Term	Course	Credits
Spring 2024	COM 31800 Prin Of Persuasion Multiple requirements	3 CR
Spring 2024	COM 25300 Intro To Public Rels Communications Selective	3 CR
Spring 2024	CSR 33200 Cross Cult Mkt-Int Ret 32 Upper Level Credits Require...	3 CR
