

Purdue Animal Care and Use Committee (PACUC)

Protocol Post-Approval Monitoring Form

~~~~~

Principal Investigator: \_\_\_\_\_ Protocol #: \_\_\_\_\_

Protocol Title: \_\_\_\_\_

Species: \_\_\_\_\_ Site Visited: \_\_\_\_\_

Personnel Present: \_\_\_\_\_

Monitoring Team: \_\_\_\_\_

Monitoring Date: \_\_\_\_\_ Monitoring Time: \_\_\_\_\_

~~~~~

PROTOCOL AND PERSONNEL SECTION

Example

- Y N 1. A current copy of the approved protocol (and subsequently approved amendments) is available in, or near, the site visited.

- Y N 2. All personnel involved in the project are listed on the protocol and have completed the PACUC orientation program and the occupational health program participation/declination form.

- Y N 3. The principal investigator and all project personnel have accurate knowledge of the procedures approved on the protocol and have received training relevant to the project.

- Y N 4. The principal investigator and other project personnel (working without direct supervision) have accurate qualifications documented in the PACUC office via Animal Care and Use Qualification Forms.

NOTES: _____

STUDY PROCEDURES SECTION

Y N 5. The procedures being conducted are approved in the protocol or amendments.

Y N 6. The site visited has a dedicated workspace for the animal procedures being conducted.

NOTES: _____

Example

ANESTHESIA SECTION

Y N 7. The methods of anesthesia used are approved in the protocol.

Y N 8. The anesthetized animals are appropriately monitored according to the protocol.

Y N 9. The inhalant anesthetics are properly scavenged or exhausted.

Y N 10. The anesthesia dosages, frequency, and routes of administration are recorded.

NOTES: _____

SURGERY SECTION

- Y N 11. The surgeries are appropriately recorded.
- Y N 12. The surgical procedures are performed in an approved area.
- Y N 13. The facilities are clean and organized.
- Y N 14. The use of sterile gloves and instruments are utilized when performing recovery surgery.
- Y N 15. The animals are aseptically prepped when performing recovery surgery.

NOTES: _____

Example

POST-SURGICAL/PROCEDURAL CARE SECTION

- Y N 16. The post-surgical/procedural monitoring and care being performed are as approved in the protocol.
- Y N 17. The analgesics used are as approved in the protocol and available.
- Y N 18. The analgesic dosages, frequency, and routes of administration are recorded.
- Y N 19. The post-surgical/procedural care is recorded.
- Y N 20. The recovery area is appropriate.

NOTES: _____

EUTHANASIA SECTION

Y N 21. The methods of euthanasia are as approved in the protocol.

Y N 22. The euthanasia dose and route of administration are recorded, if applicable.

NOTES: _____

Example

GENERAL INFORMATION SECTION

Y N 24. The number of animals used is recorded and kept current.

Y N 25. The injections, blood collection, and fluid collection are as described in the protocol.

Y N 26. The drugs, fluids, sutures, etc., are within the expiration date.

Y N 27. The principal investigator has live animals outside of the approved housing facility for more than 12 hours.

Y N 28. Occupational health and safety issues are properly addressed, posted, and/or documented (e.g., hazard assessment posted to include appropriate PPE, emergency contact list posted, N-95 mask, gloves, eye protection, other PPE).
