</table>
| Basic Course for Undergraduate Students – Responsible Conduct of Research (RCR) Training | • Plagiarism  
• Data Management  
• Research Misconduct  
• Conflicts of Interest |
| Basic Course for Faculty, Postdoctoral, and Graduate Students (F/P/G) – Responsible Conduct of Research (RCR) Training | • Plagiarism  
• Authorship  
• Collaborative Research  
• Conflicts of Interest  
• Data Management  
• Mentoring  
• Peer Review  
• Research Misconduct |
| Refresher Course* – for Researchers who have previously completed the Basic F/P/G Course – Responsible Conduct of Research (RCR) Training | • Plagiarism  
• Authorship  
• Collaborative Research  
• Conflicts of Interest  
• Data Management  
• Mentoring  
• Peer Review  
• Research Involving Human Subjects  
• Using Animal Subjects in Research  
• Research Misconduct |

*This course is for researchers paid from certain research grants from federal agencies that require periodic RCR re-training/update (e.g., every 4 years)

Supplemental/Optional Modules available for all RCR Courses

• Communicating Research Findings  
• Communicating with the Public  
• Presentation of Research Findings  
• Reproducibility of Research Results

How long does it take to complete the core online RCR training?

For each module, review of the materials and completion of the quiz takes about 30 minutes. Based on this estimate, completion of the required modules will take approximately two hours for undergraduate researchers and four hours for F/P/G researchers. Researchers may choose to complete the course in multiple sessions, choosing a couple of modules per session. A minimum score of 80% is required to pass the core RCR online course. Materials can be reviewed multiple times and quizzes can be repeated until a passing score is attained for the course. Researchers who are required to take any of the supplemental/optional modules as part of their Field Specific RCR training or are interested in any of the topics covered by these modules can add these modules at any time by choosing “View Courses” on the CITI program page.
