Leadership Lafayette

Since 1982, more than 1,700 individuals have experienced the program and gone on to lead in our community both on the job and through volunteer service.

We truly appreciate our partnership with community leaders like our founder, Bob Griffiths who had the foresight to create this amazing organization to develop community leaders.

Developing Leaders & Serving Greater Lafayette

Leadership Lafayette continues to drive the development of our region and its individuals. We utilize experiential learning and civic engagement to promote servant leadership.

Our selection committee recognizes the importance that program participants represent the diverse fabric of our community and plan to serve following graduation.

Learn and Develop new skills

Each month, Leadership Lafayette provides opportunities for participants to come together to learn, develop leadership skills, and connect with their cohort, program alumni, and leaders in our community. The sessions are facilitated by regional and national thought leaders who are knowledgeable experts in their fields.
