SCIENCE ALUMNI SUMMER RESEARCH FELLOWSHIP
Research Mentor Verification Form

The Science Alumni Summer Research Fellowship is funded by Science alumni to support an undergraduate summer research experience. This fellowship is open to College of Science students who are rising juniors or seniors with a minimum GPA of 3.0. Eligible students must be working on their own research project at Purdue for Summer, 2021. A $2000 stipend will be awarded for a 10-week summer research experience and may be supplemented by the research mentor. The fellowship recipient will present their research to the Science Alumni Board during the 2021-2022 academic year.

Deadline: April 1, 2021

Student ________________________________________________________________

Research Project name __________________________________________________

Research Mentor, College of Science department _____________________________

Email _____________________________

I verify that the student named above will conduct their own research project during the summer of 2021 under my direction.
