

Teaming and Collaboration Experiential Contract

College of Science

Meeting core requirements through experience

Your Experiential Learning contract is a working agreement between you and Purdue University's College of Science for the fulfillment of the Teaming and Collaboration requirement.

Preapproval of an experience should be secured prior to the start of an experience. Note: Students who have completed an experience, which they believe may meet the Teaming and Collaboration requirement, should contact their advisor for more information. If the advisor supports a review of the experience, then only the Experiential Learning Contract and final approval process will need to be completed.
