

Purdue VPN help:

https://www.itap.purdue.edu/connections/vpn/?_ga=2.9455733.1101386664.1566413393-1603832249.1566159807

Cisco anyconnect vpn:

It is only necessary to use the vpn when you want access to your purdue career account drive and or citrix and your device is connected to a non-Purdue network. If you are on a purdue network (wifi, ethernet, etc.) it is NOT necessary to vpn into the network to use the previously mentioned services.

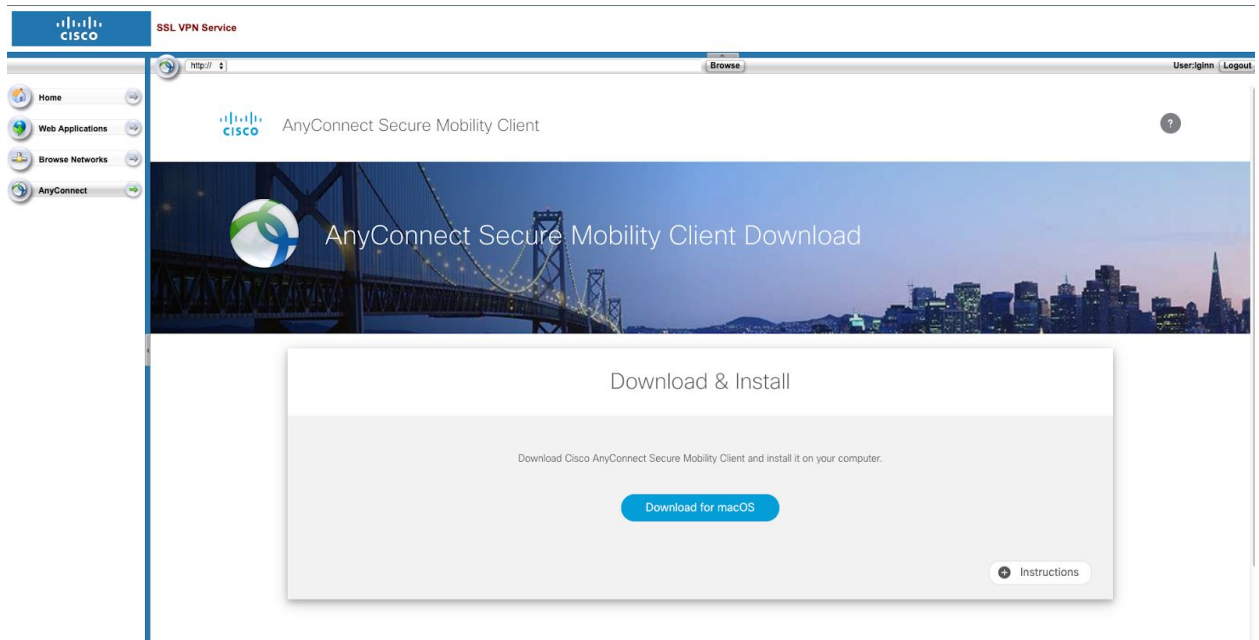

https://webvpn.purdue.edu/+CSCOE+/logon.html#form_title_t

The screenshot shows the Cisco AnyConnect VPN login interface. At the top, there is a blue header bar with the Cisco logo on the left and the text 'SSL VPN Service' on the right. Below the header, the main content area is white. In the center of the page, there is a login form titled 'Login'. The form contains the text 'Please enter your username and password.' followed by two input fields: 'USERNAME: lginn' and 'PASSWORD: *****'. A 'Login' button is located at the bottom of the form.

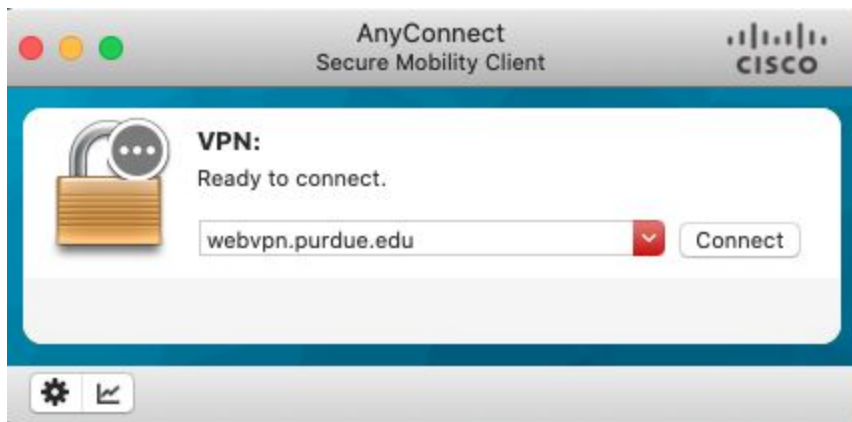

Username: lginn (replace with your purdueID)

Password: boilerkey

Click download for **MacOS** (Highlighted text will change based on the computer's OS)

After running the downloaded installer open the AnyConnect app:

webvpn.purdue.edu

Click connect

username: lginn (your purdueID)

password: boilerkey

Click OK and then accept the boiler key request on your phone or other device

Purdue Career account drive (for Windows):

<https://engineering.purdue.edu/ECN/Support/KB/Docs/MappingECNDriveWin8>

[Purdue gold answers for windows drive mapping](#)

For Drive any letter not in use by the computer will work

For folder: \\myhome.itap.purdue.edu\myhome\lginn (replace highlighted text with your purdueID)

Check reconnect at sign-in

Click finish

Purdue Career account drive (for mac):

<https://engineering.purdue.edu/ECN/Support/KB/Docs/MacOSXConnectingToSMB>

[purdue gold answers for mac drive mapping](#) (also works for linux)

Server address: smb://myhome.itap.purdue.edu/myhome/lginn (replace highlighted with your purdueID)

Username: lginn (use your purdueID) if that doesn't work try: onepurdue\lginn (replace with your purdueID)

Password: not Boilerkey

Citrix Receiver:

Download here: <http://goremote.itap.purdue.edu/>

UPDATE APP AFTER INSTALL

After downloading and installing Citrix receiver go back to the webpage:

<http://goremote.itap.purdue.edu/>

click continue

Click your name in the top right corner of the storefront page

Click activate

Open the downloaded config file

Allow Citrix to install the configuration.

username: lginn (use your purdueID instead)

password: not boilerkey
