Job Title: Associate Professor of Statistics

Job Summary

The Department of Statistics at Purdue University invites nominations and applications for tenure-track faculty positions at the Assistant Professor and the Associate Professor levels beginning August 2022. Purdue University seeks to attract excellent candidates in all areas of statistics or allied fields to strengthen a key department and build cross-campus linkages in data science and other core statistical areas. Applicants for the Assistant Professor position are expected to develop an excellent research profile that leads to external funding and those for the Associate Professor position are expected to have an excellent research profile with a substantial external funding record. All candidates shall have the interest and potential to contribute to other missions of the Department.

College and Department

This position comes at a time of dynamic leadership and with significant investment in the College of Science, which comprises the computing, physical, and life sciences at Purdue. The College has committed considerable resources in Data Science and provides highly competitive start-up packages in Statistics. The Department has 41 tenured and tenure-track professors, 16 lecturers, 153 graduate students, and a large number of undergraduates. The Department’s teaching and research activities cover a broad range of topics integral to modern statistics (theoretical, methodological, computational, and applied), probability, and data science, as well as connections to computational finance and actuarial science, industrial statistics, machine learning and artificial intelligence, spatial statistics and environmental statistics, and statistical genetics and genomics. For more information, see http://www.stat.purdue.edu/.

Qualifications

All applicants must hold a Ph.D. in Statistics or a related field, and be committed to excellence in research as well as teaching and mentoring of undergraduate and graduate students in Statistics. Confidential nominations and inquiries can be sent to zhanghao@purdue.edu. Applicants should submit the following document to this site (1) curriculum vitae, (2) research plan, (3) teaching plan, (4) a diversity and inclusion statement indicating past experiences, current interests or activities, and/or future goals to promote a climate that values diversity and inclusion. In addition, applicants for the Assistant Professor position shall arrange for at least 3 reference letters to be sent to facearch@stat.purdue.edu. Applicants for the Associate Professor position shall provide names and contact information of at least 3 references.

Applications

Applications and nominations will be held in strict confidence. Review of applications will begin on November 30, 2021 and will continue until the positions are filled. A background check will be required for employment in this position. Purdue University’s Department of Statistics is
committed to advancing diversity in all areas of faculty effort, including scholarship, instruction, and engagement.

Diversity Statement

Purdue University's Department of Statistics is committed to advancing diversity in all areas of faculty effort, including scholarship, instruction, and engagement. Candidates should address at least one of these areas in a separate Diversity and Inclusion Statement, indicating their past experiences, current interests or activities, and/or future goals to promote a climate that values diversity and inclusion.

Equal Opportunity

Purdue University is an EOE/AA employer. All individuals, including minorities, women, individuals with disabilities, and veterans are encouraged to apply.
