Purdue University College of Science Guaranteed Work Experience Program
2026 Opt-in Acknowledgement Form

By signing this form I indicate that I am choosing to opt-in to the Purdue University College of Science Guaranteed Work Experience Program (GWE).

- I understand that if I fail to meet the criteria for participation, I will no longer be eligible for the Program. Program critera are given here: https://www.purdue.edu/science/student-experience/discover/guaranteed-work-experience.html
- I understand that qualifying work experiences may be paid or unpaid.
- I agree to report all relevant offers of employment or equivalent work experience, even if I choose not to accept the offer. Any extended offer of employment or equivalent work experience will result in my completion of the Program, though I may still participate in career development opportunities offered by the Indianapolis Career Council.
- Purdue University is not responsible for the decisions of employers related to salary, stipends, or other employment benefits. I understand that it is my responsibility to engage directly with employers on these issues.
- Purdue University will not be considered my employer unless explicitly stated in an offer of employment and in no circumstances will Purdue University be considered a joint employer if I accept an offer of employment from a third party.
- Purdue University reserves the right to modify the terms of the Program in its sole discretion.

Program participants are responsible for compliance with all laws and regulations related to employment, including practical training authorization requirements.

Students studying in the United States on a student visa (e.g. F-1 visa) must comply with all visa requirements and should consult with the International Student Services (ISS) office to determine eligibility for this program and impact of participation. Students studying on an F-1 visa are advised that they will not be eligible for any off-campus practical training experience offered through participation in the program. However, they may participate in the program's on-campus career development opportunities, subject to specific restrictions.
