UNIVERSITY SENATE
Sixth Meeting, Monday, 18 March 2019, 2:30 p.m.
Pfendler Hall, Deans Auditorium

Guests: Jeremy Wampler (CSSAC), Abby Nickel (M&M), Carina Olaru (Latino Cultural Center), Emily Slater (Exponent), J. Rickus (Provost Off), V. Obrien (M&M), S. Deery (M&M), S. Beaudoin (Institutional Research), and H. Coats (Exponent).

1. The meeting was called to order at 2:35 p.m. by Chairperson Natalie Carroll.

2. The minutes of the 18 February 2019 Senate meeting were approved as distributed.

3. A motion was made and seconded to approve the March Senate Agenda. Prior to the vote, Professor Christopher Clifton made a motion to remove Senate Document 18-01, Purdue Student Government Jury Duty Absence Policy, from the Agenda as the Office of the Dean of Students wishes to review the various absence policies that affect students prior to making any changes to the policies. This review will include consideration of jury duty absences, too. The motion to remove the item was approved by unanimous voice vote. The amended March Senate Agenda was then approved by unanimous voice vote.

4. Professor Natalie Carroll presented the remarks of the Chairperson (see Appendix A).

5. President Mitchell E. Daniels, Jr. presented the remarks from the President (see Appendix B).

6. Question Time: President Daniels answered questions from the Senate floor.

- In light of the recent scandal concerning payoffs for college admissions, Professor Stephen Martin asked for comments about the number of admissions slots reserved for Purdue University’s Athletics teams’ coaches and any audits that are in place to
determine what use the coaches make of the slots. President Daniels stated that no slots are reserved for potential student-athletes. There are some scholarships available from donors that specify who may receive them and the donors’ wishes are honored. President Daniels asked for an audit back to 2011 to ensure our coaches have not taken payments to help students gain admission to Purdue University. As far as he knows, we have never been targeted by the sorts of parents or students that have been involved in the recent scandal. We are vigilant about issues surrounding college athletics and these issues have been discussed at the Senate. We are very serious about maintaining the highest standards. Our athletic programs operate at something of a disadvantage because we do insist on high standards for our student-athletes. Our student-athletes are in class, earning real degrees, and earning honest grades. We never want to have to be concerned about issues such as this recent scandal.

- Professor Kip Wiliams followed up with a related issue. He asked: “What are we doing to examine the standardized test-taking apparatus to make sure that people are not cheating or doing things of this sort with the same operation that Professor Martin was talking about?” Vice Provost for Enrollment Management Kris Wong Davis noted that if there is a standardized testing score that seems out of line with the student’s credentials from high school, we can push that back to the testing agency and request a re-review of the test score. In this type of situation, we also norm students to ensure that what we see across the band are consistent test scores. Most students, but not all, sit for more than one test and if we can see the results from more than one test, we can see variability between/among test scores. If there is a large jump from one test to the next test we will push it back to the testing agency for a re-review of the second test and validate the scores. President Daniels added that software now exists that can identify worrisome variability and can detect when people come in and out of rooms when tests are in progress. Our friends at Purdue Global are considering investing a lot of money in this type of software to monitor test-takers and we might consider similar software.

7. Representing the Steering Committee, Professor Helen McNally presented the Résumé of Items under Consideration (ROI) by various standing committees (see Appendix C). The Chairs of the Senate Standing Committees briefly described the current activities of their respective committees. Of note, the Chair of the Senate Nominating Committee, Professor Frederick Berry, reminded the Senators that we still need volunteers for the various standing committees of the Senate.

As part of the ROI presentations, Professors Deborah Nichols and Stephen Beaudoin provided an update on the activities of the Purdue Global Select Committee (see Appendix D). Following the presentation, they entertained questions from the Senate floor.

- Professor Martin asked if the profit-and-loss statements of Purdue Global will be made public. Treasurer William Sullivan stated that Purdue Global is a component part of Purdue University and its income statement is part of our finance statements and is shown separately, so the answer is “yes”. To be clear, Kaplan Higher Education (KHE) is at risk in the first five years of the agreement. If there are insufficient funds to pay back the costs that they incur, they have agreed to absorb up to $75 million of those losses or three consecutive years of $25 million in losses. There will be losses in the first three years because of the brand-building, but KHE is putting those dollars at risk. They have put a cap on it that says three consecutive years of $25 million or more in each year or $75 million in
total gives them the right to call a timeout. Professor Martin followed up by asking for clarification: "Does the three consecutive years of losses refer to Purdue Global or KHE?" Treasurer Sullivan stated it refers to losses by Purdue Global.

8. Professor Fred Berry presented Senate Document 18-06, Nominees for Vice-Chair of the Senate, for Action. The two nominees were Professor Deborah Nichols and Professor David Sanders. The candidates made brief presentations to the Senate prior to the vote on the document. No additional candidates were nominated from the Senate floor and the vote on the document was taken by secret electronic ballot. As a result of the vote, Professor Deborah Nichols was elected as the next Vice-Chair of the University Senate with a term to begin on 1 June 2019.

9. Senate Document 18-07, Merger of the Visual Arts Committee and the Architectural and Landscape Design and Planning Committee, presented for Discussion by Professor Jonathan Neal. No discussion occurred. This document will be for Action at the April Senate meeting.

10. The Director of the Latino Cultural Center, Carina Olaru, presented an update about the Center (see Appendix E). Following the presentation, Director Olaru answered questions from the Senate floor.
   • Professor Erik Otarola-Castillo asked if there were any plans to rename the Center with the gender-neutral “LatinX” title in place of “Latino”. Director Olaru said that there are no current plans to rename the Center. Conversations have occurred on this matter. Director Olaru does not plan to change the Center name because the term LatinX might be around for a long time or it could become less commonly used. She has changed all of their literature to include LatinX.
   • Professor Jules Janick asked who owned the Center building. Director Olaru stated that Purdue University owns the building.
   • When asked if the Center’s charge extends to other Purdue campuses, Director Olaru said it does not extend to other Purdue University campuses.
   • Professor Cheryl Cooky thanked Director Olaru for her presentation and appreciated her comments about resources for faculty to best utilize the Center. She asked if Director Olaru had shared her pamphlets with the Directors of the other cultural Centers. Director Olaru has recently shown the other Center Directors her pamphlets. They frequently have conversations with professors about cultural issues. For example, a professor was going to travel to Peru with students and many students from the class visited the Latino Cultural Center to get a tour of the Center. The Center staff were uncertain why the students were visiting the Center prior to the trip to Peru. Director Olaru recognized the disconnect between visting the Center as a means of becoming culturally aware and the reality of a trip to a Latin American country. She contacted the professor and they met to discuss how to do this better next year.

11. No New Business was brought to the Senate.

12. No Memorial Resolutions had been received.

13. Having no additional business, the meeting adjourned at 4:10 p.m.
The Nominating Committee proposes the following slate to serve as Vice Chairperson of the University Senate for the academic year 2019-2020. The nominees for Vice Chairperson are:

Deborah Nichols          Human Development and Family Studies
David Sanders          Biological Sciences

Candidate biographical sketches are attached.

Deborah Nichols

DEBORAH NICHOLS (Ph.D., 1998, University of Texas at Austin) is Associate Professor of Human Development in the College of Health and Human Sciences at Purdue University, joining the faculty in Fall 2015. She is co-author of Media Exposure During Infancy and Early Childhood: The Effects of Content and Context on Learning and Development (2017, Springer) as well as over 100 journal articles, book chapters, practitioner-targeted documents, and technical reports spanning the fields of developmental and child psychology, education, media effects, and communication. She has been awarded more than $7 million in contracts and grants from corporate, foundation, and federal sources and has collaborated or consulted with multiple educational media companies (e.g., PBS, CPB, WGBH Public TV Boston, Out of the Blue, Sesame Workshop, Nickelodeon, Disney, Eebee’s Adventures, Scholastic); members of Congress; and other private agencies and foundations both domestically and internationally (e.g., Captions For All, the World Bank, Children’s Investment Fund Foundation, Read On Get On/National Literacy Trust, U.K.). Nichols has served on multiple advisory boards at local and national levels including PBS KIDS Next Generation Digital Media Advisory Board; the Walt Disney Scholars Board; and the Reading Rainbow Advisory Board. Her research and expertise have been featured in numerous print, radio, television, and web news outlets.

With respect to service at Purdue University, Nichols has served on multiple departmental, college, and university committees. Departmental and college committees include Undergraduate Studies; Graduate Studies; the HDFS Methodology Core; and the HHS Research Advisory Council. University committee membership includes Faculty Affairs (2017-present) and the Purdue Global Senate Select Committee (2017-present). She currently chairs Faculty Affairs and has co-chaired Purdue Global since its inception in 2017. She has experience outside Purdue University with several national scholarly association committees including the American Psychological Association’s Division 46 (Media Psychology) News Media, Public Policy, and Public Education committee (current); the International Communication Association, Children, Adolescents, and Media Division, Roundtable Selection Chair (past); and the Society for Research in Child Development Task Force on Interdisciplinary Research (past). She began volunteering locally with the Red Cross Disaster Action Team in January 2019.

Service at prior institutions:

- University of Iowa (2011-2015): Undergraduate Admissions; Early Childhood Cluster Hire; Collegiate Teaching Award Committee; Teaching & Learning, multiple content area search
committees; Early Childhood Licensure Committee; Strategic Priority 2 – Research Implementation Committee; College Research Requirements Committee; Get Ready Iowa! Steering Committee; DeLTA Center; College Faculty Representative, Deloitte Consulting & State of Iowa Regents' Board Efficiency Study

- University of Pennsylvania (2002-2011): Graduate Studies; Space; Sexual Harassment Officer; University Committee on the Quality of Student Life; Provost Research Council; University Committee on Campus & Community Life; University Council Sub-Committee on Public Safety and Communication

David Sanders

David Sanders is an Associate Professor of Biological Sciences at Purdue University. He received his Bachelor of Science degree from Yale College in Molecular Biophysics and Biochemistry. He conducted his Ph.D. research in Biochemistry with Dr. Daniel E. Koshland, Jr., who was then editor of the journal *Science*, at the University of California at Berkeley. David Sanders originated the idea of the “Molecule of the Year” feature in *Science*. His Biochemistry Ph.D. thesis concerned his discovery of a critical biochemical reaction that underlies how bacteria sense and respond to changes in their environments. Following a position as a Visiting Scientist at the University of California at San Francisco, where he studied signal-transducing GTPases, he was a postdoctoral fellow at the Whitehead Institute for Biomedical Research, which is affiliated with M.I.T. It was there that he began his studies on the entry of viruses into cells with a focus on the inhibition of infection and applications to gene therapy.

Dr. Sanders joined the Markey Center for Structural Biology at Purdue University in 1995, where he was Executive Committee Representative of the Purdue University Life Science (PULSe) Molecular Virology program and is also a member of the Birck Nanotechnology Center and the Oncological Sciences Center. He was the discoverer of a biochemical reaction that leads to the entry of cancer-causing retroviruses into cells. Professor Sanders also is the author of two U.S. patents on novel gene-therapy delivery techniques. His work on the Ebola virus led to his participation in the U.S. Defense Threat Reduction Agency’s Biological Weapons Proliferation Prevention Program, a product of the Nunn-Lugar legislation. His responsibilities included inspecting the Vector laboratory in Siberia, which was the site of biological-weapons development in the era of the Soviet Union. He has investigated the transmission of viruses from other animals to humans and is often invited to speak on ethics, biodefense, evolution, gene therapy, vaccination and influenza viruses in public forums. Dr. Sanders has been interviewed by media around the world about his research, the role of science in public policy, and the future of higher education. He is a recipient of the National Science Foundation CAREER Award for his work on an enzyme that is involved in production of the greenhouse gas and potential energy source, methane. He is also an American Cancer Society Research Scholar and received the Lions Club Cancer Research Award. Professor Sanders was the 2015 Haines Lecturer in Biochemistry at Wabash College and is the 2019 Moses Passer Lecturer at Cornell University. He was a principal investigator on a Howard Hughes Medical Institute Experiment Grant for the reform of the undergraduate premedical curriculum. Dr. Sanders serves on the Federation of American Societies of Experimental Biology (FASEB) Science Policy Committee and Research Enterprise and Breakthroughs in Bioscience Subcommittees. He was elected to the American Association of University Professors National Council in 2018. He also was elected to the West Lafayette City Council in 2015.

At Purdue University, Dr. Sanders has served on numerous committees at the departmental, college, and university level. Among the posts he has filled, Prof. Sanders has served as Convener of the Department of Biological Sciences Safety, Undergraduate Studies, and Undergraduate Curriculum Reform Committees. He has been the yearly organizer of the Professor Miriam Hasson Memorial Lecture. Professor Sanders was elected the inaugural Chair of the PULSe Admissions Committee. He was elected Chair of the College of Science Grievance Committee and Chair of the University Grievance Committee. Dr. Sanders has served as a member of the College of Science Faculty Council and the Undergraduate Curriculum and Academic Policy Committee. He also served as the Purdue University representative on the Indiana State Core Transfer Library Life and Physical Sciences Academic Panel. Professor Sanders has served on the Purdue University Senate Faculty Affairs Committee and is currently a member of the Student Affairs Committee. He was elected three times
to serve as Chair of the Steering Committee and was elected in 2015 as Vice-Chair and subsequently served as Chair of the University Senate.

TO: The University Senate
FROM: University Resources Policy Committee
SUBJECT: Merger of the Architectural and Landscape Design and Planning Committee with the Visual Arts Committee

DISPOSITION: University Senate for Discussion and Approval

REFERENCE: Faculty Committee Descriptions

PROPOSAL: Combine the two committees to better coordinate their shared activities.

RATIONALE: Campus planning integrates buildings and landscapes to provide a physical infrastructure that facilitates the functions necessary to achieve goals and mission of Purdue University. Master planning occurs on a scale that exceeds the focus of individual committees reporting to the URPC. A review that includes all our committees in addition to their individual focus would improve oversight and coordination of the work of the URPC and committees.

1. The Architectural and Landscape Design and Planning Committee and the Visual Arts Committee will terminate and merge into a new committee: Visual Arts and Design Committee. The budget for the Visual Arts Committee shall move to the Visual Arts and Design Committee.

2. The Visual Arts and Design Committee shall:
   A. Study and promote a heightened cultural atmosphere on campus through the visual arts in cooperation with appropriate academic departments and/or campus organizations. It shall plan and develop a program of acquisition, maintenance, and display of arts and artifacts for the University that will create an atmosphere in which students, staff, and citizenry can gain a heightened appreciation of the diversity of visual art forms and its creators.
   B. Review general design criteria of proposed new structures; evaluate and suggest alternatives where appropriate. Advise the vice president for physical facilities on matters of building and landscape design concerns from the user’s viewpoint. Periodically review overall campus appearance and make recommendations for improvements relating to architectural and landscape design and planning.

3. Review of Master Planning will become the responsibility of the University Resources Policy Committee. The University Resources Policy Committee shall hold an annual joint meeting with the chairs and vice chairs and their designees of the following committees The Budget Interpretation, Evaluation and Review; Parking and Traffic; Sustainability; and Visual Arts and Design Committee with Administrators responsible for campus planning. The purpose of the meeting is:
   A. To review revisions and progress in the Master Plan and potential projects that may move forward.
B. Provide input to planners on potential effects on the university community and discuss ideas for improvements or alternatives.

UNDOCUMENTED IMMIGRANT TO HYPERDOCUMENTED PROFESSOR: THE POWER OF DOCUMENTATION
Tuesday, January 23rd
6:00PM-7:15PM
WAC 209

One of America's undocumented political leaders presents her first public speaking tour in the midwest. Aurora Chang will share her life story and discuss how personal, political, and cultural trauma shaped her journey from undocumented immigrant to at-risk professor. She will challenge us to reflect on the borders (political, cultural, and social) we all create and transcend through our stories.
