

CONGRATULATIONS 2020 GRADUATES!

**SPAN PLAN CELEBRATES
PASSION, COURAGE, PERSISTENCE AND STUDENT SUCCESS**

FABIAN RENGIFO

***Civil Engineering, emphasis on
Hydraulics and Hydrology***

BEST STUDENT EXPERIENCE

Taking those tough classes and proving to myself that I was capable.

MOST CHALLENGING

The switch to virtual classes made it very difficult for me to stay on task. I split the day into time blocks so I could concentrate fully on my classes.

NEXT UP

I will be going to the East Coast and work in the water industry, which is what my degree was preparing me for.

WORDS OF ADVICE

The struggle and the challenge is a great trade off in the long run. It sounds cliché but hang in there, do one thing at a time and those small actions in the end add up!
