

CONGRATULATIONS 2020 GRADUATES!

**SPAN PLAN CELEBRATES
PASSION, COURAGE, PERSISTENCE AND STUDENT SUCCESS**

TIMOTHY CUMMINGS

Aeronautical Engineering
Technology

BEST STUDENT EXPERIENCE

Becoming an undergraduate TA and getting to help other students gain a better understanding of material I was already familiar with.

MOST CHALLENGING

Working on group projects with traditional students who have different priorities in life. I dealt with the challenge by remembering my priorities at their age and providing guidance and feedback to try and help them understand my point of view on what needed to be done.

NEXT UP

I will return to work in the U.S. Coast Guard leveraging my new found knowledge to improve our aircraft overhaul processes.

WORDS OF ADVICE

Try to create a space at home dedicated to school work. Having a family that wants to spend time with you is a wonderful thing, but when you have a paper coming due or difficult homework to finish, place to work without being interrupted is a must!
