

Winter 2024 and Summer 2025 Minors and Certificates

Minors and Certificates for Undergraduate Students

An academic minor or certificate is a secondary academic discipline that complements a student's major area of study or allows exploration of a non-related area of interest. Students may earn minors and certificates from other Colleges. **To declare a minor or certificate, consult with your advisor to determine the best fit for your goals and schedule.**

Timely Graduation

Minors and certificates should be considered as an optional direction for elective credits. Most students stay on track to graduate with one or more minors or certificates. Keep in mind that early planning can help seamlessly integrate these into your academic journey. Students can take three credits during winter and nine over the summer to complete 12 extra credits per year, accelerating progress toward graduation.

Learn New Skills and Explore Interests

Enhance your resume by learning valuable skills that complement your degree. Minors and certificates provide an opportunity to explore additional interests and passions beyond your major.

Summer and Winter Courses

Complete necessary courses during Summer and Winter Sessions. A variety of offerings are available; check the [online University Catalog](#) for all options. **Remember to verify the latest requirements with the department.** Be aware that some courses may have **prerequisites (indicated by asterisks*)**, and other courses are available during the school year.

Summer 2025 Term Dates												
Week of	19-May	26-May	2-Jun	9-Jun	16-Jun	23-Jun	30-Jun	7-Jul	14-Jul	21-Jul	28-Jul	4-Aug
