

Office of the Chief Financial Officer and Treasurer

June 15, 2023

The Honorable Eric J. Holcomb Governor of the State of Indiana Statehouse Indianapolis, IN 46204

Dear Governor Holcomb:

At its meeting on June 9, 2023, the Purdue University Board of Trustees approved the planning, financing, construction and award of construction contracts for the Runway 5-23 Rehabilitation at the Purdue University Airport adjacent to the West Lafayette campus.

This project will repave the smaller of the two airport runways as the asphalt is near the end of its useful life. A connector taxiway will be relocated to improve safety by providing more distance and a wider turning angle during landings. Another connector taxiway that is unused will be removed as part of this project.

This project is supported by the Federal Aviation Administration and fulfills Purdue's obligation to maintain its airport infrastructure. The availability of Runway 5-23 is critical to maintaining current levels of airport operations, including the success of Purdue's enrolled flight students as the primary users of this runway.

The estimated total project cost is \$3,600,000 and is funded by \$3,147,625 of Federal – Grant and \$452,375 of Operating Funds – Reserves.

Subject to review by the Commission for Higher Education and recommendation by the State Budget Committee and the Budget Agency, we request your approval to proceed with this project. Attached are the completed forms that the Commission has prescribed for its review of such projects. We will be happy to answer any questions you or your staff may have or to provide any additional information that is needed.

Sincerely,

CLOPS

Christopher A. Ruhl Chief Financial Officer and Treasurer

| Since the projec | | based (paving work |), the cost/squa | re foot indicat | ors are not a good measure. | This project's scope a | and cost are des | cribed more in |
| Estimated ann | ual change in cost of buil | ding operations ba | used on the pro | oject: N/ | A | | | |
| Estimated ann | ual repair and rehabilita | tion investment (5) | <u>):</u> \$ | 54,000 | | | | |

(1) Gross Square Feet (GSF)- Sum of all area within the exterior envelope of the structure.

(2) Assignable Square Feet (ASF)- Amount of space that can be used by people or programs within the interior walls of a structure. Assignable square feet is the sum of the 10 major assignable space use categories: classrooms, laboratories, offices, study facilities, special use facilities, general use facilities, health care facilities, residential facilities and unclassified facilities. For information on assignable space use categories, see Space-Room Codes tab.

(3) Projects should include all costs associated with the project (structure, A&E, infrastructure, consulting, FF&E, etc.)

(4) Be consistent in the naming of funds to be used for projects. If bonding, note Bonding Authority Year (1965, 1929, 1927, etc.)

(5) Estimate the amount of funding the institution would need to set aside annually to address R&R needs for the project. CHE suggests 1.5% of total construction cost

(6) If issuing debt, determine annual payment based on 20 years at 4.75% interest rate

- If project is a lease-purchase or lease, adjust accordingly. Note the total cost of the lease in the project cost, and annual payments in project description

| Institution: | Purdue University | Budget Agency Project No.: B-1-23-2-17 |
|-----------------------------|---|---|
| Campus: | West Lafayette | Institutional Priority: <u>N/A</u> |
| | | |
| Description of | fDrojact | |
| This project wi | ill repave runway 5-23 at the Purdue Unive | versity Airport adjacent to the West Lafayette campus. A small connector taxiway |
| (Bravo 3) will | be relocated and reconstructed to provide r | more distance before turning during landings. Additionally, another smaller |
| connector taxiv | way (Bravo 2) is no longer used and will be | be eliminated as part of this project. |
| | | |
| | | |
| | | |
| | | |
| | pose of the Program | |
| The Purdue Un | niversity Airport is the second busiest airpo | ort in the state, only behind the Indianapolis International Airport. |
| Purdue's airpor | rt is used to support a number of operations | ns, including flight instruction for professional flight students in the School of |
| Aviation Tech | nology and Transportation. The program's | largest incoming class is anticipated for fall 2023, with approximately 1,000 |
| beginning stud students. | ents. Purdue is helping to address the natio | onal pilot and aviation professional shortages through the graduating of these |
| students. | | |
| - | · · · · · · · · · · · · · · · · · · · | ways at the airport as part of its operations. Runway 5-23 was last repayed in 2001 |
| | | niversity Airport consists of two runways. Runway 5-23, included in this project's bed for small aircraft use. The other, runway 10-28, is larger and is usable by both |
| large and small | l aircraft. However, given the volume of air | irport operations, both runways are needed to continue operating at current levels. |
| | primarily use runway 5-23. Runway 5-23 le for larger aircraft. | diverts smaller aircraft from runway 10-28, which makes runway 10-28 more |
| | le loi larger anerart. | |
| Relocating and | l reconstructing a connector taxiway will in | mprove airport safety by providing a more distance for aircrafts to land and turn. |
| | | |

Notes:

- Space/Room codes based on Postsecondary Ed Facilities Inventory and Classification Manual (2006)

(1) Identify in a footnote the specific facilities that are included in the data in these columns. Do not include pending approval, non-submitted projects or non-funded projects

Space under construction includes:

- Schleman/Stewart Renovation

- Whistler Mechanical Project

- Ross-Ade Stadium Renovation

- Zucrow High Speed Propulsion Lab

- Mackey Locker Rooms Renovation

Space planned and funded includes:

- Life Sciences Phenotyping Greenhouse Building

- Northwest Chiller Plant System Improvements

- Vawter Hall Electrical Enhancements and Replacement

- Brown Family Hall Renovation

- PMU 2nd Floor Hospitality Renovation

- Libraries Study Space Renovation

- University Hall and Related Renovations

- Mechanical Engineering Building Renovation

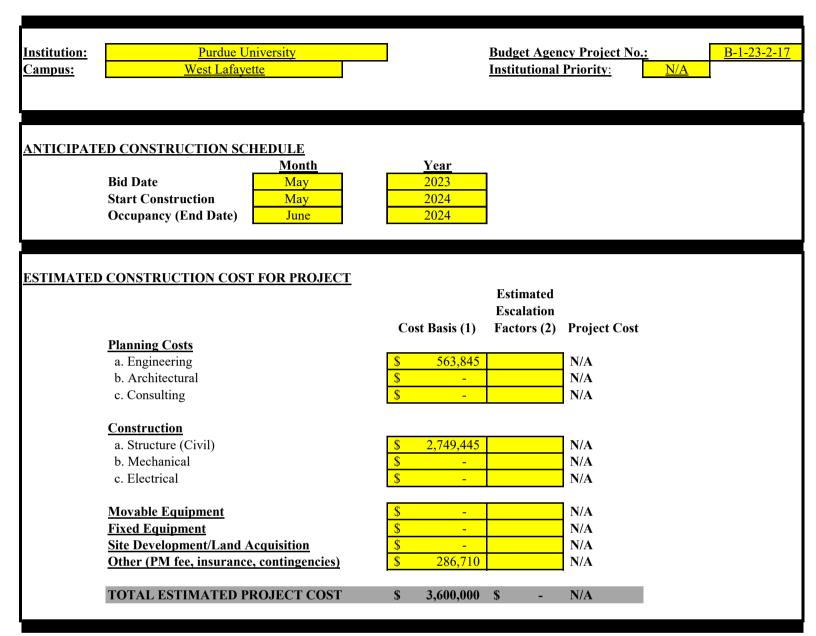

- Birck Nanotechnology Center Clean Room Modernization and Related Renovations

- Chilled Water Capacity Enhancement Projects

(2) This project has no impact to assignable space.
