

Office of the Chief Financial Officer and Treasurer

September 9, 2021

The Honorable Eric J. Holcomb Governor of the State of Indiana Statehouse Indianapolis, IN 46204

Dear Governor Holcomb:

At its meeting on August 6, 2021, the Purdue University Board of Trustees approved the planning, financing, construction and award of construction contracts for Biochemistry Building Main Electrical Distribution Replacement.

This project will replace two transformers and two electrical distribution systems in the Biochemistry Building that are past their useful life. This includes main switches, panels and circuit breakers that support building equipment and lighting.

This project will improve service reliability, provide research laboratories with the flexibility to install more or different lab equipment and will enhance technician safety.

The estimated total project cost is \$2,300,000, funded by Operating Funds. This project is included in Purdue's approved FY22 Repair and Rehabilitation budget.

Subject to review by the Commission for Higher Education and recommendation by the State Budget Committee and the Budget Agency, we request your approval to proceed with this project. Attached are the completed forms that the Commission has prescribed for its review of such projects. We will be happy to answer any questions you or your staff may have or to provide any additional information that is needed.

Sincerely,

Christopher A. Ruhl

Chief Financial Officer and Treasurer

PROJECT COST SUMMARY

Biochemistry Building Main Electrical Distribution Replacement

| Institution: Campus: West Lafay Previously approved by General Assem Part of the Institution's Long-term Cap Project Size: N/A GSF (1) Net change in overall campus space: | bly: No | Budget Agency Proje Institutional Priority Previously recomment N/A ASF/GSF N/A ASF | <u>N/A</u> | <u>B-1-22-2-04</u> <u>No</u> | | | |
|---|--|---|--------------------|---------------------------------|--|--|--|
| Total cost of the project (3): Total cost of the demolition: Funding Source(s) for project (4): | \$ 2,300,000 \$ - Amount \$ 2,300,000 | | J/A GSF N/A ASF | | | | |
| Estimated annual debt payment (6): Are all funds for the project secured: Project Funding: This project is funded by Operating Fund | N/A Yes s, and all of the funds are sec | cured. | | | | | |
| Project Cost Justification Since the project is utilities based, there is not a ASF or GSF associated with the work. This project scope and cost are similar to the projects listed in the comparable project section. | | | | | | | |
| Estimated annual change in cost of building operations based on the project: N/A Estimated annual repair and rehabilitation investment (5): N/A | | | | | | | |

- (1) Gross Square Feet (GSF)- Sum of all area within the exterior envelope of the structure.
- (2) Assignable Square Feet (ASF)- Amount of space that can be used by people or programs within the interior walls of a structure. Assignable square feet is the sum of the 10 major assignable space use categories: classrooms, laboratories, offices, study facilities, special use facilities, general use facilities, support facilities, health care facilities, residential facilities and unclassified facilities. For information on assignable space use categories, see Space-Room Codes tab.
- (3) Projects should include all costs associated with the project (structure, A&E, infrastructure, consulting, FF&E, etc.)
- $(4) \ Be\ consistent\ in\ the\ naming\ of\ funds\ to\ be\ used\ for\ projects.\ \ If\ bonding,\ note\ \ Bonding\ Authority\ Year\ (1965,1929,1927,etc.)$
- (5) Estimate the amount of funding the institution would need to set aside annually to address R&R needs for the project. CHE suggests 1.5% of total construction cost
- (6) If issuing debt, determine annual payment based on 20 years at 4.75% interest rate
- If project is a lease-purchase or lease, adjust accordingly. Note the total cost of the lease in the project cost, and annual payments in project description

Notes:

- Space/Room codes based on Postsecondary Ed Facilities Inventory and Classification Manual (2006)
- (1) Identify in a footnote the specific facilities that are included in the data in these columns. Do not include pending approval, non-submitted projects or non-funded projects

Space under construction includes:

- Vet Med Teaching Hospital
- Gateway Complex
- PMU Renovations
- Purdue Bands & Orchestra Building

Space planned and funded includes:

- Child Care Center Building
- Hypersonics Building
- Secure Research Center
- Whistler Hall Mechanical Systems Replacement
- Schleman Hall, Stewart Center and Related Renovations
- (2) There is no space to be added or terminated as part of this capital project.
