National Defense Science and Engineering (NDSEG) Fellowship Information Sessions

Two Sessions, same content shared in each session:

**Tuesday, June 6, 8:00 pm, Online**

Or

**Wednesday, July 26, 4:00 pm, Online or in-person at YONG B83**

**Learn how to Prepare a Competitive Application**

Incoming PhD students and current first-year PhD students whose research has defense-related applications are encouraged to attend this session to learn how to apply for the NDSEG Fellowship. Adapt these winning strategies for organizing your application and hear from past winners to make your NDSEG application shine. **Note: The NDSEG Fellowship requires US citizenship.**

Recipients of the NDSEG Fellowship can receive up to three years of funding including coverage of tuition and fees along with a $40,000 annual stipend for up to three years.

NDSEG Fellowship Website: [https://ndseg.org/](https://ndseg.org/)

**Eligibility Requirements:**

- Graduating senior, current masters student, or first or second-year PhD student
- STEM research related to national defense (engineering, social sciences, life sciences, physical sciences, technology, etc.)
- US citizen or US national

**Questions?** Contact Dr. Lisa Nielsen at [lnielse@purdue.edu](mailto:lnielse@purdue.edu)

**Want more than NDSEG?** Additional grantsmanship and professional development workshops are posted [here](#).
