Re: Janelle Musch Named Director of Special Events and Alumni Relations for the College  
of Science

I am very pleased to announce that Janelle Musch has been appointed to the position of director of special events and alumni relations for the College of Science. She will be responsible for developing and implementing imaginative events designed to engage alumni and friends with the important work of the college. She will be the college's primary contact with the Purdue Alumni Association and the Science Alumni Board.

Musch was most recently an event planner with University Development. Prior to joining the development team, she was the Children Youth and Families at Risk (CYFAR) Program state coordinator for the Department of Youth Development and Agricultural Education.

Musch earned her Bachelor of Science in consumer and family sciences from Purdue University.

She will begin her duties in the college on Wednesday, September 24.
