

**JERRY AND ROSIE SEMLER DIRECTOR
DISCOVERY LEARNING CENTER**

Discovery Park is launching an internal search to identify an individual with vision and demonstrated leadership skills to work in a very innovative setting as the Director of the ***Discovery Learning Center*** in Discovery Park (<http://www.purdue.edu/dp/dlc>). Since its inception in March 2003, the ***Discovery Learning Center's*** mission has been to advance research that revolutionizes learning in the STEM disciplines (science, technology, engineering, and mathematics). The ***Center*** focuses on creating, developing, and nurturing interdisciplinary research that contributes to: the science of learning, the design of innovative educational programs, and the development of interactive learning technologies. Approximately 176 faculty members from within the ten colleges of the University participate in the Center.

The Director of the ***Discovery Learning Center*** is expected to utilize the unique infrastructure of Discovery Park and Purdue's extensive recent investments in the science of learning in the STEM disciplines to combine discovery, engagement, and learning activities into a world class center at Purdue University. Discovery Park is home to Purdue's large-scale interdisciplinary research and engagement programs where the entire spectrum of the mission of the land grant university is realized from fundamental and applied research to continuing education and economic development. Currently, Discovery Park is comprised of 11 interdisciplinary research centers and 4 buildings on a 40 acre site on campus. The ***Discovery Learning Center Building*** is scheduled to open in Fall 2009.

The Director should hold a doctorate and must be a well-established investigator with a distinguished record of scholarly and scientific accomplishments commensurate with the appointment of full Professor. Administrative experience in the leadership of multi-investigator research projects is desired, as is experience in helping to build new interdisciplinary programs integrating research, education, and engagement with non-academic constituencies. The Director reports to the Executive Director of Discovery Park and provides a leadership role for interdisciplinary learning programs on campus working closely with Academic Deans, Department Heads, Discovery Park researchers, the faculty affiliated with the ***Discovery Learning Center***, and external stakeholders.

Nominations or applications should be submitted via e-mail to weiderhaft@purdue.edu. Applications should include a letter of interest that outlines qualifications and vision for the position, curriculum vita, and the name of three references (including their postal and e-mail addresses, and phone numbers). Review of applications will begin February 27, 2009 and will continue until the position is filled. Questions should be addressed to Dale Whittaker, ***Discovery Learning Center*** Search Committee Chair, dwhittak@purdue.edu or 765-494-8472.
