

Would you like exceptional undergraduates participating in your research?

The **Discovery Park Undergraduate Research Internship (DURI)** program is accepting project descriptions for posting in Fall 2009.

What is the DURI Program?

DURI allows you to select outstanding Purdue undergraduates to participate in your DP-affiliated research project(s). DURI pays the student(s) a stipend each semester, and you provide the research mentoring.

How do I submit my project description(s)?

You will be asked to enter a brief description into a simple web form, along with your contact information. You can view additional information (including sample projects) and use the simple form to submit your project proposal online:

<http://www.purdue.edu/dp/duri/faculty-enterproject.php>

***Project Descriptions DUE
FRIDAY, August 14, 2009***
