

GLOBAL VETERINARY MEDICINE CERTIFICATE PROGRAM

ABOUT

The Global Veterinary Certificate Program was created to provide PVM students with a complete cross-cultural experience for before, during, and after traveling abroad. The certificate is tailored to give students a better understanding of Global Veterinary Medicine as well as prepare them to engage with the culture they are experiencing.

Students will gain insight on:

- Global approaches to Veterinary Medicine
- International perspectives on animal welfare
- Staying safe and healthy abroad
- Engaging with the host community's culture
- Opportunities abroad
- Applying experiences to the job market

GUIDELINES

- Must complete the *International Veterinary Medicine* course (VM 80900) offered in the Spring
- Must attend at least 4 workshops hosted throughout the year
- Must participate in an international experience related to Veterinary Medicine before graduation
- Required attendance at the "Pre-Departure Lecture" before start of travel
- Must attend the "Marketing Your Global Experience" workshop upon return
