

## PROFESSIONAL LIABILITY INSURANCE COVERAGE

I am requesting Professional Liability Insurance coverage for all clinical mentorship placements. **This policy is an annual policy that runs from August 1 – July 31 each year. It does not need to be renewed each semester.**

**The cost for the entire year of coverage is \$13. This \$13 fee is billed through the Bursar's Office allowing it to be paid in the same manner that tuition is paid.**

The university's liability insurance underwriter will provide coverage for student professionals who are enrolled in supervised University programs. The following policy excerpt outlines the coverage that is provided:

- Liability arising from real or alleged damages caused by the student while performing duties directly related to curriculum requirements while on Purdue University property (working during regular clinical rotations in the Purdue Veterinary Teaching Hospital).
- Liability arising from real or alleged damages caused by the student while performing duties directly related to curriculum requirements at facilities outside of Purdue University (working at a veterinary practice not affiliated with Purdue to complete the requirements of a course or degree).
- Court costs related to the incident
- Legal counsel
