

TEAMWORK

INSIGHTS FOR LOCAL
MANUFACTURERS

Teamwork is a collaborative effort to achieve goals. Within a true team, each individual is interdependent with all the others; all work towards one or more goals. Each individual supports all others, raising performance and leveraging every individual's strengths and their lesser-strengths. Team performance is structured to create better performance whether ideation, development, product quality, safety and/or corporate efficiency.

DID YOU KNOW?

86% of employees and executives cite lack of collaboration or ineffective communication for workplace failures.

Application

At Purdue, the faculty understands the importance of teamwork in the workplace; this is why almost every class requires team work. Innovation and success stem from collaboration, so it is important that we learn how to work as team at Purdue before we enter the work force.
