Thanks for our members who attended our November Meeting
“Confronting Self-Doubt in Graduate School”

Here are some tips that Dr. Suzanne Nielsen gave for confronting self-doubt:
• Practice and achieve non-academic goals too
• Make a list of things you have achieved to help deter self-defeating thoughts
• Monitor your self-thought: Don’t be mean to yourself!

Wadsworth Graduate Mentoring Award
Applications due January 21, 2014
• Recognizes the special contributions made by a graduate student recipient in the area of mentoring women
• Open to any MS or PhD student in engineering who meets the criteria outlined online at https://engineering.purdue.edu/WIEP/WadsworthGradAwardIntro.htm
• More info available online

**Workshop - Research on Open Digital Innovation – November 21, 2013**

Are you a PhD student or potential future PhD candidate and excited about this emerging innovation landscape? Do you want to join and shape the future of innovation research? Are you thrilled to tackle interdisciplinary research questions at the interface of management and economics, information systems, design engineering, data science and public policy in an action-oriented and empirical research setting? Sign up for the new interdisciplinary PhD Seminar offered in Spring 2014, and start an intellectually inspiring journey of potential research on Open Digital Innovation. During this journey you will learn about relevant theories and research settings related to this emerging field of research. You will start planning a research project in the area of Open Digital Innovation and even pilot a potential research question. Register for the workshop luncheon at https://ias.itap.purdue.edu/rgs/wgb_workshop.disp_online_workshop.
