We can’t believe it’s the last newsletter of the semester!

Thanks for your attendance and participation in this year’s GMP program! Your support makes this program worthwhile!

Be looking out for a few newsletter updates throughout the summer, as well as some summer GMP activities.

Happy Summer and Best Wishes for a productive and energizing summer!

Student Government Opportunities through PGSG

If any graduate students in Civil Engineering, Materials Engineering, or Electrical and Computer Engineering are interested in leadership roles, seats in the Purdue Graduate Student Government (PGSG) are open in these departments for next year. This requires forwarding informational e-mails to your department up to once per week, one or two meetings per month (with food), and representing the interests of your department in any discussions or votes. If there are any questions, you can contact Ana Rynearson at arynears@purdue.edu

END OF YEAR SURVEY

This survey lets us know how well we are doing at planning a fun and useful program for our graduate women engineers, and helps us know where we need to improve for the next year. Your feedback is very important to us, so please take a few minutes to take the survey at the link below:

https://purdue.qualtrics.com/SE/?SID=SV_0ddMCzkuKKgS6gJ

BEFORE APRIL 30TH AT 5PM.
Meet the new members of the GMP Leadership Team!

**SHAMBHAVI BALASUBRAMANIAN**

**Discipline:** Mechanical Engineering  
**Research Interests:** Specializing in System and Controls. I work at Herrick Labs in Engine Controls.  
**Undergraduate Institution:** Cummins College of Engineering for Women, India. I did my undergrad in Electronics & Telecommunication Engineering.  
**Favorite Food:** I am a vegetarian. I love traditional Indian food, and also Italian. And LOVE all types of dessert (anything sweet for that matter).  
**Dream Vacation Destination:** Prague. And Bali. I love travel, and photography.  
**Any awesome summer plans:** I am going to be interning as a Controls Engineer at Cummins Inc. in Columbus, IN. Besides that, I plan on skydiving (from 13,000 ft).  
**Thing you’re looking forward to most about being on the LT:** I have always enjoyed the GMP meetings and activities, and now being on the LT team gives me a chance to not only interact with great women from different engineering fields, but also shape meaningful relations with them. I want to contribute to GMP and hope to learn more about leadership too.

**NATASCHA TRELLINGER**

**Discipline:** Engineering Education  
**Research Interests:** Global engineering education, graduate student professional development, mentoring, teaching engineering  
**Undergraduate Institution:** Syracuse University  
**Favorite Food:** Currently, red curry at Basil Thai  
**Dream Vacation Destination:** Polynesia  
**Awesome summer plans:** Cross country road trip!  
**Thing you’re looking forward to most about being on the LT:** Getting to know and learn from so many awesome ladies!

We look forward to seeing you next school year. Remember, you’ll have to sign up for GMP again in the Fall, even if you’re a member this year. Come August, be on the lookout for sign-up emails.
