

Hand Tool Safety and Operation

NOTICE Rules and guidelines listed on this page are only reminders. Persons must read lab safety manual, and be trained by WRL Manager.

Safety Rules

- Wear safety glasses.
- Use the right tool for the job.
- Use the right size tool for the job.
- Cut, drive, or work away from your hands, face, body, aisles, and other people.
- Check hammer handle for fit and condition.
- Carry sharp tools with point down and back.
- Do not use a chisel or screwdriver to pry.
- Do not use excessive force on any hand tool.
- Use a wrench or ratchet, not pliers, on nuts and bolts.
